The figure consists of 10 sub-diagrams arranged in a single row, labeled 1 through 10. Each diagram shows a different stage of a 2D hexagonal lattice. Diagram 1 is a single hexagon. Diagram 2 shows a central hexagon with six smaller hexagons attached to its sides. Diagram 3 shows a central hexagon with six smaller hexagons, each of which is further subdivided into four smaller hexagons. Diagram 4 shows a central hexagon with six smaller hexagons, each of which is further subdivided into four smaller hexagons, and so on. The diagrams illustrate the growth of the lattice from a single hexagon to a large, interconnected network.

Figure 1 consists of 10 maps of the Iberian Peninsula, each representing a different year from 1970 to 2060 in 10-year increments. Each map displays the spatial distribution of the number of species per 100 km². The maps show a general trend of decreasing species richness over time, with the 2060 map showing the lowest values. The maps are arranged in a single row, with the year 1970 on the left and 2060 on the right.
